

Hot air seam sealing machine(normal)

MV920T

Optional single or double stepping motor

Hot air seam sealing machine(single face)

MV921T

Power requirements	AC 220V 50/60Hz
Power rating	2.5KW
The highest temperature	UP to 700 °C
Speed	1~23m/min
Compressed air	0.35~0.5 Mpa
The wheel width	Normal: 25mm Customizable: 28mm , 35mm , 55mm
To do tape width	10-22 mm/optional extra
Upper roller lift	10~30mm
Size of machine	1200x540x1650mm
Size of Packing	1270x590x1550mm
Gross weight	168kgs

Horizontal tube hot air seam sealing machine

MV925T

1. Adopt PLC easy-to-read, high-definition touch-type multi-functional display screen to clearly display speed, temperature and operation programming.
2. Temperature automatic control, high stability, temperature fluctuation $\pm 1^{\circ}\text{C}$.
3. The upper and lower pressure transmission chain synchronous transmission, automatic compensation virtual position, automatic micro retreat function, reduce pressure belt blank.
4. Designing the control program of double foot pedal according to human body mechanics, it is comfortable to operate, not easy to fatigue, and suitable for long-term operation.
5. The unique heating tube structure, inlet air filtration, no water and oil.
6. The use of Taiwan stepper motor control, belt, pressure belt and sealing tail stability is higher.
7. Automatic micro retreat function, according to the need to set the length, automatic belt, shear belt, improve product quality.
8. Automatic cutting tape, belt conveyor, automatic tail tape to complete, reduce material loss.
9. strengthen the type of ruler, large operation space.
10. According to customer needs, it can be set the length and automatically cut the belt.

Characteristic

360° Adjustable nozzle

Double link swing arm

Touch screen, temperature control and display in on screen

Easy adjust Upper column route

Easy change LED lamp

Hollow insulation

Example

Hot air seam sealing machine for shoes

MV923T

Hot air seam sealing machine for shoes

MV922T

Optional single or double stepping motor

Feed off the arm hot air seam sealing machine with double stepping motor

MV926T

Feed off the arm hot air seam sealing machine

MV924T

Optional single or double stepping motor

Dual use hot air seam sealing machine with double stepping motor

MV927T

Application:Used for apparel fabrics, shoe materials, textile and other materials heat laminating/bonding.

Seam sealing tape series

Uniform thickness, high efficiency, wrinkle proof, non poisonous, tasteless and good stickiness

Supply all kinds of color, material of hot-melt tapes, seam sealing tapes.

Hot melt adhesive film
